

## Government Will Assist In Providing Work To Meet Unemployment

Winnipeg.—Several government departments have been requested to co-operate in as many ways as possible with municipalities and provinces in meeting the unemployment situation through such agencies as they are in a position to employ.

This is made known in a telegram received here by James Grant, chairman of the Manitoba Association of Unemployed Ex-service Men. The communication was received from Harry Baldwin, secretary to Premier Mackenzie King.

The telegram was in reply to one sent by Mr. Grant to the prime minister requesting immediate assistance for the unemployed ex-service men.

The departments that have been requested to co-operate with municipal and provincial authorities include the departments of public works and railways and canals.

While there has been no official pronouncement from the Dominion authorities, it is understood here that the government is considering commencing public works construction in various centres immediately to assist the unemployed. Ordinarily, the work to be undertaken would not be started for some months.

### Children Die In Fire

Three Smothered By Smoke Before Rescue Could Be Made

Hull, Que.—Fire broke out while they were playing about their home, took the lives of the three children of Mr. and Mrs. Pierre Parisse here. The theories entertained as to the origin of the fatal blaze are that either the children were playing with matches or an electric heating plate set fire to the walls.

The dead are: Jean Paul, aged five years; Paulette, two years and six months; and Adrienne, seven months.

The conflagration, breaking out during the brief period the mother absented herself to telephone from the ground floor apartment of the triplex in which the Parisse family resided, gave off such a volume of smoke that the little tots were smothered before a rescue could be effected.

### Governor-General Returns

Party Of Prominent Persons Greet Lord Willingdon At Ottawa

Ottawa.—After an absence of six weeks spent in a cruise to Bermuda and the West Indies, Their Excellencies the Governor-General and Viscountess Willingdon returned to the capital recently. They were warmly greeted at the union station by a party of prominent persons including Premier Mackenzie King, and Rt. Hon. F. A. Anglin, Chief Justice of the Supreme Court, who acted as administrator in His Excellency's absence.

### May Face Prosecution

Summed Proceedings May Start Against Persons Named In Waldron Report

Ottawa.—Although official confirmation is lacking, it is understood the justice department has decided to institute proceedings against more than 100 persons named in the report of Gordon Waldron, K.C., as being parties to a combine in a restraint of trade.

Ernest Lapointe, Minister of Justice, said that announcement of the department's decision might be expected within the next few days.

### Express Fear For Islanders

London, Eng.—The Daily Express expressed grave fear for the inhabitants of Bardley Island off Carnarvonshire, who have not been reached from the mainland since December 15, due to the gale which has been most persistent since then. They were believed to be without food. There has been no response to beacon lights and other signals, which is declared to be unprecedented.

Saskatoon Town Planning Scheme  
Saskatoon, Sask.—A representative of the firm of Wilson Bunnell and Bargstrom, of Toronto, consulting engineers, will be brought to Saskatoon to make a study of conditions here from the stand point of town planning. Definite recommendations with respect to zoning, traffic, bridges, major streets, and other questions are sought.

W. N. U. 1821

### Start Hazardous Trip

Five Men Making Journey Across Rockies On Skis

Jasper.—Five young men have left Jasper, Alberta, on a 300-mile ski trip across the Rocky mountains to Banff. It will be one of the most hazardous adventures of its kind ever undertaken, and if the trip is successful it will be the first time such a crossing has been made during the winter months.

The members of the party are: Vernon and Allen Jeffry, Pete Withers, Frank Burstrum and Joe Weiss, all of Jasper Park, and all experienced mountaineers and skiers. They expect to conclude their trip by February.

The adventure was planned last spring and during the summer adequate caches were placed at strategic points along the route which, in some cases, will be more than 9,000 feet above sea level. At such altitudes very low temperatures, in some cases sixty below zero, are likely to be encountered, and the party will also have to face such dangers as unknown snow conditions and the elimination of trail guides that are visible during the summer.

As far as is known this is the longest continuous ski trip ever attempted anywhere in the world.

### Korean Students Strike

Over Ten Thousand Said To Be Involved In Trouble

Seoul, Korea.—One thousand Korean students including 250 girls, have been arrested as a result of a strike of 13 college and high schools, including two missionary institutions run by United States societies.

The strike involved students estimated to number 10,000. It occurred during the post-holiday examinations, and ostensibly out of sympathy for the 900 students arrested last month. The December strike was said to have been due to long standing quarrels between Japanese and Korean students of the middle schools.

Many of those arrested last month still are in prison. Japanese authorities believe the new strike was engineered by a street society with Communistic tendencies.

### Rust Resistant Wheat

Marquillo Wheat Grown At Saskatchewan University For Some Years

Saskatoon.—Although Marquillo wheat, now recommended by the University of Minnesota, is a production of the plant breeders at that university, it has been grown at the University of Saskatchewan for a number of years, and has proved highly rust resistant and equal to Marquis except for a slight yellowness of flour color.

This wheat has been crossed with the Marquis at the University of Saskatchewan and Dr. J. B. Harrington, in charge of this work, expects to have offspring of this cross which gives great promise of extremely high milling quality along with the rust resistance of the Marquillo parent.

### Want Old Age Pensions

Immediate Acceptance Of Government Pension Plan Is Urged For Quebec

Quebec, Que.—William Tremblay, Conservative M.L.A. for Maisonneuve, urged the immediate acceptance by the Quebec Government of the Dominion old-age pension provisions, speaking in the legislative assembly, in the course of the debate on the address in reply to the Speech from the Throne. He argued that the people of Quebec were aiding in the payment of pensions in other provinces through the Dominion taxes and getting nothing for their own aged people.

### Application Withdrawn

Ottawa.—The board of railway commissioners has been advised that the application for increased rates on express matter throughout Canada is withdrawn. The application for increased rates was made about a year ago and hearings have been pending since that time, until the association decided to withdraw its original demands.

### American Women For Peace

Washington.—Five hundred women delegates to the Cause and Cure of War conference, appeared at the Senate office building in an effort to obtain the support of senators in behalf of United States adherence to the World Court.

### May Migrate To Mexico

Doukhobors Sending Delegation To Investigate Lay Of Land

Saskatoon.—Doukhobors of Canora district are sending six investigators to Mexico to investigate the lay of the land with a view to possible migration on a considerable scale when spring comes.

Decision to send the delegation, which will represent both brotherhood and independent doukhobors, was made at a largely attended meeting in Canora.

Of the delegation which is going to Mexico, two will be from the brotherhood at Verigin, one from British Columbia, and the other three men are Sevelle Chernoff, of Verigin; Wasy Novokoshonoff, of Buchanan; and W. Popoff, of Blaine Lake. Peter Verigin, well-known Doukhobor leader, whose father met a violent death in 1924, will accompany the delegation as far as New York. Verigin presided at the Canora meeting.

## FARMERS MUST MAINTAIN HIGH WHEAT QUALITY

Saskatoon, Sask.—Unless Canadian farmers maintain the high quality of their wheat, they are in imminent danger of finding no market for it, according to Major H. G. L. Strange, of Fenn, Alberta, who addressed the convention of the Saskatchewan Field Husbandry Association at the University of Saskatchewan. Major Strange, once winner of the grand award of the International Hay and Grain Show, at Chicago, and an enthusiastic seed grower, has made a study of the conditions in respect to marketing wheat, not only in Canada but also in England and in continental Europe.

"The man who buys is the important man," stated Major Strange, "and not the producer. If we do not provide a product of quality and at a price which suits the consumer, we will not be able to sell it. Not long ago the cry was raised for two dollar wheat, and we were told that the world could not get along without our grain. During the last six months we have been shown how well the world can and will do without Canadian grain, for the millers of Europe have reduced the percentage of flour from our wheat, which is mixed into their bread, from 35 to 10."

This, stated the speaker, was not because they objected to the higher price altogether, but because the quality in the last few years has been sacrificed for quantity in production. Countries buying Canadian wheat are devoid of sentiment, and Canadians sell their grain to Britain and then buy goods from the United States. The Argentine buys goods with the money received for their grain, and keeps a good customer. Sheer economic necessity compels the British buyers to go where they can get the most value for their money and sell the most goods in return.

Russia is again in the market, and as a result, the price of wheat drops eight cents in Canada. There is no reason for Canadian farmers, with the advantage in methods they have gained in the past five or ten years, not holding the top of the world market with their wheat, if the former high standard is kept up. The only way to do this is to follow the advice of Cato, who, two thousand years ago, said: "Plough well, sow good seed and keep down the weeds." The C.S.G.A. offers facilities for the procuring of good seed equalled by no other organization in the world, and it is up to the farmer to protect his own interests.

### Chinese Railroader

Jun-Ke Choy, special representative of the Ministry of Railways for the Chinese Nationalist Government at Nanking, China, (right), who arrived at Saint John, January 4th, from Great Britain, on board the Canadian Pacific liner "Duchess of Richmond," with Mrs. Choy, (centre), and P. C. Chen (left). Mr. Choy is greatly interested in Canadian railroading, and when in Montreal, had conferences with Grant Hall, Vice-President of the Canadian Pacific Railway, and with other officials. Mr. Choy expressed himself as deeply impressed with the Canadian Pacific System.

### COUNTESS OF SEAFIELD

The engagement has just been announced of the Countess of Seafeld, youngest British countess in her own right, and one of the richest women of England, to Derrick Studley Herbert, formerly an officer in the Grenadier Guards. He is now engaged in business in London.

### Have Important Task

Committee Will Try To Co-ordinate Pacts Of Peace

Geneva.—The personnel of the important committee which will have the task of bringing the league's disarmament covenant into harmony with the Kellogg-Briand peace pact, has been made known by the council of the League of Nations.

The members, meeting on February 12, will be: M. Adachi, Japan; Lord Cecil, Great Britain; B. B. Von Bulow, Germany; E. Coban, Spain; Mariano Cornejo, Peru; Pierre Cote, France; Vittorio Scialoja, Italy; Francesco Sokal, Poland; Nicholas Titulesco, Rumania; M. Unden, Sweden, and Woo Kai-Seng, China.

Their task will be to fill in the gap in the league covenant which tacitly allows armaments consistent with national security and implies action by league members against a nation which starts an aggressive war. The later pact of Paris renounces war altogether.

### Selecting Winner Of Trophy

Trans-Canada Air Award To Be Made Shortly

Ottawa, Ont.—The Department of National Defence has sent out a circular letter addressed to all aviation concerns in Canada inviting recommendations for guidance in the award of the McKee trans-Canada trophy.

The trans-Canada trophy, donated by the late J. Dalziel McKee, is awarded annually to the Canadian pilot making the greatest contribution towards the advance of aviation in this country during the year. Pilots in the employ of government services are barred.

Last year the trophy was won by "Punch" Dickens, and the year before by Captain H. A. "Doc" Oaks.

### Naval Architect Dead

Victoria.—One of the most widely known architects of his day, and who had to his credit the building of three Spanish cruisers that took part in the battle of Santiago, in 1898, and was founder of the steel ship building industry in Japan, is dead here in the person of James Stewart Clark, following a prolonged illness. He was a native of Troon, Ayrshire, Scotland, and was eighty years of age.

### Vessel Adrift On Atlantic

Reward Is Offered For Return Of Schooner To Newfoundland

Halifax.—A reward of \$1,000 is being offered by the government of Newfoundland to any officer of any ship who goes aboard the schooner "Neptune" and brings back to Newfoundland the vessel that is drifting at the mercy of sea and wind somewhere in the North Atlantic. Her captain, accustomed only to shore navigation is unable to bring her to port.

This information, broadcast from Cape Race, was received by C. H. Harvie, local marine and fisheries agent. Hundreds of ships crossing the Atlantic would pick up the message. The schooner has been drifting helplessly since it left St. John's Nfld., on November 29, and was driven out to sea by a hurricane that scattered the fleet of 10 vessels with which the "Neptune" had left for home ports on the northeast coast of Newfoundland.

The "Neptune," carrying 19 persons, was reported "all right," 720 miles southeast of Newfoundland on December 15.

### U.S. Automobile Fatalities

Figures Show 31,500 People In 31 States Killed In Auto Mishaps In 1929

Chicago, Ill.—Figures made public by the National Safety Council showed 31,500 persons were killed in automobile accidents in 31 states during 1929.

The total was 13 per cent. more than in 1928, the report said, while motor vehicle registration increased only 8 per cent.

More than half the victims were pedestrians.

## TAKES HOPEFUL VIEW OF SUCCESS OF NAVAL PARLEY

London, Eng.—Great Britain can only move on the principle that other nations move correspondingly with her, and that when an agreement on naval disarmament is arrived at, it shall represent an international policy adopted by the other nations as well as Great Britain, this comprised the keynote of the formal remarks made by Prime Minister Ramsay MacDonald, when he met a couple of hundred newspaper correspondents of all countries, both resident in London and specially sent to the British capital, who will report the naval disarmament conference.

Among points the prime minister established, were that Great Britain is looking for the eventual elimination of the battleship, both on account of its tremendous expense (Mr. MacDonald mentioned they cost £7,000,000 apiece), and also because of the differences among naval experts concerning their utility. Until battleships are eliminated it is sought to effect a gradual reduction in their tonnage and gun-power when replacements are made.

British authorities, the prime minister continued, took a hopeful stand on the instruments already effected, such as the Locarno pact, the optional clause of the world court agreement, and the pacts of Washington and Paris with a number of additional regional agreements. These instruments had already given the whole world a greater feeling of security, so that if the risk of war had already been reduced, it was surely reasonable, he said, to expect armaments could be reduced.

Premier MacDonald stressed that if the conference failed, it would mean the world would be faced with 10 or 20 years' competitive naval building. But he was confident it would achieve a treaty effective in reducing navies to the lowest level consistent with national safety.

Today also, Lord Bridgeman, first Lord of the Admiralty, in the former Conservative Government, attacked the Labor Government for lowering the British level of cruisers necessary for Empire defence, from 70 to 50. The justification for this given by the government, the improved atmosphere resulting from the Paris pact, "is most unconvincing," Lord Bridgeman said.

Speaking to the British Naval League, Lord Bridgeman added the belief that some agreement might be reached in a spirit of give-and-take; "but others must give as well as ourselves."

At another meeting, Vice-Admiral E. A. Taylor also expressed grave fears for the future of Britain's naval defenses and some doubts as to the security offered by the Kellogg-Briand pact.

"The Kellogg pact is no guarantee whatever that war is a thing of the past," Vice-Admiral Taylor declared.

## Anti-Liquor Enforcement Holds Prominent Position In News From The U. S.

### Safety Of the Empire

Assures the Dominions That Nothing Will Be Done To Menace Our Security

London, England.—Prime Minister Ramsay MacDonald apparently aroused by the attacks made by certain naval experts, including Lord Bridgeman, former Conservative first lord of the admiralty, upon the government's proposals for naval reductions, has definitely assured the Dominions' representatives in England, that he may be depended upon to do nothing that will menace the security of the empire.

The criticism of the Conservative admiralty ex-officials, including Vice-Admiral Taylor, is based on the proposed reductions of the cruiser fleet from 70 to 50 vessels. Mr. MacDonald's contention is that in view of world conditions and particularly of the Kellogg pact, no country in the world wants, or is in a position, to attack for the next 10 years at least, and that the big question before all the powers at the forthcoming conference is how far they can take advantage of this situation and reduce their naval armaments and expenditures without imperilling their security.

While the prime minister obviously hopes that the empire will present a united front, he has made it clear that the Dominions will have perfect freedom to express their own views, even if they should conflict with those of the British Government.

### Launch Big Undertaking

Alberta Livestock Pool Is Going Into The Packing Business

Lethbridge, Alberta.—The Alberta Livestock Pool will go into the packing house business, co-operative leaders announced here recently. It was stated that definite steps were being taken to establish regular plants at Lethbridge, Calgary and Edmonton, the growers to be asked to become shareholders in the enterprise. The campaign in the south, sponsored by the Southern Alberta Co-operative Association, with 2,000 members—the largest co-operative livestock unit in the province—will be launched at once.

### SUNDAY SCHOOL LESSON

JANUARY 28

### STANDARDS OF THE KINGDOM

Golden Text: "Blessed are the pure in heart; for they shall see God."—Matthew 5.8.

Lesson: Matthew 5.1-48.

Devotional Reading: Psalm 24.1-6.

### Explanations and Comments

The scene, verses 1, 2.—Jewish rabbis usually sat while teaching, and Jesus followed the custom. Surrounded by His disciples, the Twelve and also others, He "opened His mouth and taught them," in Matthew's Hebrew statement—a solemn way of introducing words of great importance.

Receipts For Blessedness, verses 3-10.—Blessed, with this word each of these verses begins. We call them the Beatitudes, from "Beati," Blessed, the word with which they begin in the Latin version. Blessedness is higher than happiness. Happiness may seem to depend on circumstances; blessedness always depends upon relationship with God. "Blessedness is an infinitely higher and better thing than mere happiness," says a note in Weymouth's New Testament. "People who are blessed may outwardly be much pitted, but from the higher and truer standpoint they are to be admired, envied, congratulated and imitated."

And who are the blessed? The poor in spirit, said Jesus. Poor in spirit is in no sense poor-spirited; rather it is the truest manliness. The poor in spirit are the humble-minded, who are conscious of their need of God, those who, in Dr. George D. Boardman's words, "conscious, it may be, of great spiritual capacities, are at the same time conscious of great spiritual incompleteness, and therefore kneel at Heaven's gate for Heaven's supplies." Luke's version gives only "Blessed are ye poor," and a writer in the Expository Times explains that the two statements are one and the same, for "the poor" was a recognized term among the Jews for those who had dedicated themselves to the service of God. They were, for the most part, literally poor in this world's goods, but they possessed God, and having Him they had attained blessedness. Blessedness depends not upon what one possesses, but upon what one is.

For theirs is the Kingdom of Heaven. Notice that each Beatitude gives the reason. There are many definitions of the Kingdom of Heaven, or Kingdom of God. As it is used here we may think of it as having for its members the followers of Christ, who obey His teachings and seek to further His ideals. The Sermon on the Mount, which has been called "The Constitution of the Kingdom of God," contains a generous portion of His great teachings.

Washington.—The close of the first decade of national prohibition in the United States, found anti-liquor laws figuring prominently in the news from widely separated sections of the nation.

At Washington congressional committees prepared legislation to carry out recommendations for improved enforcement, sponsored by President Hoover and the law enforcement commission.

Chairman Wickersham, of the commission, issued a statement supporting the constitutionality of the proposal for trying minor prohibition cases before U.S. commissioners.

Leaders of the anti-saloon league met at Detroit and began sessions with addresses declaring for "an aggressive, militant fight until country and city submit to the law."

An announcement was made at Lansing that Michigan state police will use machine guns and tear bombs to prevent run running.

Governor Green, of Michigan, commuted the sentences of five prohibition law violators serving life terms under the state's formal criminal code.

Governor Dillon, of New Mexico, recommended the use of the army to patrol the borders as a test of the dry laws.

Governor Richards, of South Carolina, recommended to the state legislature that buyer and seller of liquor be made equally guilty, with a jail sentence mandatory upon the second conviction.

Seventy-one persons were arrested in prohibition raids at Columbus, Ga.

A federal judge at Jacksonville, Fla., ruled customs and other officers must have definite knowledge that an automobile contains liquor before the vehicle can be searched.

At Oklahoma City, 102 persons charged with conspiracy to violate dry laws were sustained in a motion for a bill of particulars.

### Less Unemployment Predicted By Meighen

Former Canadian Premier Says Industry Will Solve Its Own Problem

Toronto.—Due to the organizing aptitude of industry and society to solve its own problems industrial unemployment will be on the decrease from now on, said Rt. Hon. Arthur Meighen, former Canadian premier, speaking before members of the Rubber Association of Canada here.

The development of new services catering to the needs of the people would take up the slack in the numbers set adrift by the increasing application of machinery to industry and contribute to an ever expanding circle of human comforts, Mr. Meighen said. He did not believe the unemployment problem could be solved by insurance as it would not remedy the social problem of dealing with those who have no ambition to labor unless the necessity of obtaining sustenance is forced upon them.

### Canada May Have Civil Service Council

Minister Of Labor Forecasts Establishment This Month

Ottawa.—Establishment of the National Civil Service Council before the end of January was forecast by Hon. Peter Heenan, Minister of Labor, addressing the civil service association, of Ottawa. The council, modelled along the lines of the Whitley councils in Great Britain, will consist of representatives of each branch of the service and will act as liaison between the service and the government.

### Dry Educational Campaign

Detroit, Mich.—A \$50,000,000 dry educational campaign was outlined at a meeting of the anti-saloon league here by its chief, Dr. Ernest H. Cherrington, who declared that education against alcoholism presents the "greatest challenge the socially-minded builders of an alcohol-free America" have faced in the last hundred years.

### Ban On Parrots

Berlin.—The official gazette prohibited the importation of parrots into Prussia to guard against the spread of psittacosis, or "parrot's disease," discovered in many parts of Germany. The embargo is effective immediately and until further notice.

There are more than 19,000 doctors in the United States who practise as specialists only.

## Canada's Winter Golf Tournament

COLWOOD GOLF AND COUNTRY CLUB

Victoria, capital of British Columbia, whose golfers enjoy their game the year round, owing to the ameliorating influence of the Japanese current, will hold its second annual Mid-Winter Gold Tournament under the auspices of the Empress Hotel Feb. 17-23, 1930. This tournament is an amateur handicapped affair open to both men and women competing in their own sections. The principal trophy is the E. W. Beatty Challenge Cup at present held by T. L. Swan and Mrs. Hew Paterson of Victoria, although a large list of other prizes is being posted. The tournament will be played over the Colwood Golf and Country Club's course, which winds through a vast forest of Douglas firs, some of them 25 feet in circumference, and ancient, gnarled oaks and cedars dating from the time when Vancouver Island was sighted by Capt. George Vancouver. If the entry list becomes too formidable the Victoria Golf Club will be held in reserve for the overflow. All visitors to Victoria are eligible for this tournament.

Victoria, often called the "Evergreen City," is on the Southern tip of Vancouver Island and is one of the most picturesque and interesting cities in Canada. It is the gateway, via the Malahat Drive, to the center of an island paradise with vast trees, lakes full of trout, big game and imposing mountains. There is splendid salmon fishing in streams which flow into the Gulf of Georgia and the Pacific.

## Town &amp; District

The Gleichen Curlers announce their Bonspiel Dance will be held in the Gleichen Community Hall on Wednesday night, February 5th. They are preparing to make this the best of all the dances they have given and invite the world.

It is reported that while Mr. and Mrs. Angus McLeay were attending the hard-time dance at Meadowbrook last Friday night sneak-thieves broke into their home and stole a lot of fresh meat, butter and other things. It is hoped the guilty parties will yet be captured and given plenty of time to consider their cussedness.

The Gleichen Curlers third annual Burns Night dance held in the Community Hall proved to be most enjoyable and successful from every point of view. The attendance was good, the music good and the supper served by the ladies of the St. Andrew's W. A. all that could be desired.

The annual meeting of the Gleichen Town Council and the Gleichen Public School Trustees will be held at 8 p.m. on Friday, January 31st.

Word has been received that Mrs. Tom Meehan died at DeWinton on Sunday and that the funeral will take place at Calgary today.

In future advertisements shown on the picture screen in the Gleichen Community Hall will cost 50 cents per night.

A boxing show was staged at Queenstown Monday night when Earl Zurch of Calgary won a decision over Emil Jensen of Turner Valley. Kid Scott of Portland knocked out Phil Capstan of Calgary, Windy Kay of Brooks fought a draw with Mushy McGurk of Calgary and Master Mickey Lynch won a decision over Danny O Danegal, both of Calgary.

## SCHOOL CHILDREN'S FREE NIGHT AT PICTURE SHOW

Next Saturday night, Feb. 1st, all school children of the town and district will be admitted free to the picture show at the Gleichen Community Hall. Kiddies this is your night and the management hope you will fill the hall. Saturday evening after the Monarchs of Calgary hockey game T. H. BEACH.

## COMING EVENTS

Jan 31—Gleichen Public School Annual Meeting.  
Feb. 1—School Children's Free Picture Show.  
Feb. 5—Curlers Bonspiel Dance in Community Hall.  
Feb. 3-4-5—Gleichen Curlers Annual Bonspiel.  
Feb. 12—Prof. Phelps Canadian Club Lecture.  
Feb. 15—Blackfoot M. D. Annual Meeting in Gleichen Community Hall.  
Feb. 26-27—Gleichen Community Hall Public Carnival.

## OPEN HORSE ABATTORI

While Canadians feel quite sick when ever they think of eating horse over in Europe it has become quite the ordinary edibles, and now our cynose is to cross the briny ocean all dolled up in tin packages for the Europeans to munch. In brief some enterprising Yankees announce they intend to set up a plant at Calgary and employ from 100 to 150 men six days a week in killing fifty horses a week for this purpose. This should be of advantage in the Gleichen district and especially on the Blackfoot Indian reserve as there are thousands of horses eating off the range that are not useful for hardly any other purpose.

The new plant will provide a commercial use for the wild and nondescript "broomtails" which infest the western ranges. The commercial products of the plant will include horsefeesh for human consumption in Europe. None of this meat will be offered for sale in either Canada or the United States, but will be exported for exclusive European distribution through agents at Rotterdam.

Other by-products will include fertilizer, fox and dog food, and use has also been found for hide and horse hair.

It is estimated that there are a quarter of a million horses running the ranges in Alberta, Saskatchewan, and British Columbia. They would be rounded up and purchased in the usual way, and then shipped to Calgary alive.

The type of horses which will be bought for the plant has been a drug on the market for years, and the commercial destruction of these will

be a great boom to the range industries, so the Western Livestock union has urged. Not only will such destruction mean a better price for good horses, but it will also free a vast amount of range in the prairie provinces for the purpose of raising cattle and sheep.

An American company has been looking over the situation in the west for some time, the Herald is informed, and has taken an option on an abattori in Calgary for the purpose of starting a killing plant. The only setback it is stated has been the lack of federal inspection.

R. A. Wright, president of the Western Livestock Union, was the active figure in getting this bar removed.

An artificial lake being created in Switzerland will provide a waterfall of 5,000 feet to be utilized in generating electricity.

## Cattle and Hogs Shipped Weekly

I ship hogs once a week. Any person wanting to sell hogs should advise me two or three days in advance. Will also look over any cattle offering for sale.
